Summary

Experienced Maintenance Specialist with a demonstrated history of working in the recreational facilities and services industry. Skilled in Computer Literacy, Forklift Operation, OSHA 30-Hour, equipment repair, Certified Pesticide Applicator, and Supervisory Skills with 5+ direct reports. Strong operations professional with a Associate of Science - AS focused in Turf and Turfgrass Management from Wayne Community College and currently enrolled in software development at the same institution. Pesticide certification is still active and does not expire until 2027 so reacquiring a license is not difficult. Have currently been in the IT field for 2 years. I do have some experience with landscape design software. Willing to learn new skills and build existing ones to meet the needs of the right employer.
